ERRATA:
NONVANISHING OF TWISTS OF L-FUNCTIONS ATTACHED TO HILBERT MODULAR FORMS

NATHAN C. RYAN, GONZALO TORNARÍA, AND JOHN VOIGHT

This note gives some errata for the article *Nonvanishing of twists of L-functions attached to Hilbert modular forms* [1].

(1) Page 337, Theta series, paragraph 2: The equation should read

$$\Theta(\Lambda, P; z) = c_0 + \sum_{\nu \in \mathbb{Z}_{F,+}} c_\nu q^{\mathrm{Tr}(\nu z)}.$$
